

SBI INTERNATIONAL HOLDINGS AG (UGANDA)

Established in 1958, SBI International Holding AG is a Global Construction and Development Company with its headquarters in Switzerland and has operations in Africa, Europe, Middle East and South America. With over 50 years of experience in fields of construction industry ranging from roads, bridges, railways, buildings, hydroelectricity, dams and real estate construction; SBI International Holdings Ag (the International arm of Shikun & Binui Infrastructure) is valued for its know-how, efficiency and stability. Its innovative capabilities, advanced construction technologies and strict adherence to schedules; have earned Shikun & Binui Infrastructure a rank among the top 250 International Contractors in the world.

SBI International Holdings Ag (Uganda) a Leader in Uganda's local road construction market, with a clean reputation of implementing turnkey projects, with organizational methodology that places a high priority on quality construction, consistent operations and commitment regardless of external changes or upheavals, is headed by the country's Managing Director, Eng. Yaron Dunsky.

With a mission "To be the **INDUSTRY LEADER** and the **best Construction Company in Uganda**", SBI (Uganda) has created a better known brand name than its competitors due to its timely delivery of quality work. Dunsky believes the key of SBI's success is the company's performance and successful track record of completed projects over the years. "When we're developing a project we make sure that we are focusing on the right priorities," he says. "We are operating for the long run. Which means the quality of our work is a top priority. We offer levels of quality performance that are always to the satisfaction of our clients."

It has in the last 14 years delivered a number of Road Projects; which were variously funded by the Government of Uganda and its development partners such as the European

Union, World Bank, and African Development Bank (ADB) namely:

1. Nebbi - Arua, 76km
2. Karuma - Olwiyo,
3. Kagamba - Rukungiri, 34km
4. Kasese - Kilembe - Kikorongo - Equator, 53.5km
5. Hima - Kasese - Kikorongo, 53km
6. Jinja - Bugiri, 78km
7. Kabale-Kisoro-Bunagana/Kyanika, 100km
8. Bugiri-Busia/Malaba 82.5km
9. Masaka-Mbarara and Kampala - Masaka 155km
10. Mbarara-Katuna Lot 2 and Mbarara - Katuna Lot 3. 124km
11. Karuma-Olwiyo 42km

The on-going Projects are Mukono-Katosi -Nyenga road 74km, the Mukono-Kayunga-Njeru road. 93km and offering consultancy services for the detailed design and construction supervision of the 3000 Units of the Lubowa Housing Project. The dynamic forward moving organization structure, characterized with a high degree of flexibility and creativity, has given SBI a leading edge when competing for major international contracts.

At SBI Uganda, we believe that enhanced transport network, does not only bring goods & services closer to the availed markets, but also improves quality of life and economic opportunities for everyone across the country. This is very important for a country like Uganda which is on track of modernising its industrial base, for the improvement of its people's lives.

On getting Ugandans connected with development, SBI recognizes the importance of women in society, and promotes equality for socio-economic opportunities; the Company employs more women and we take pride in 69% of female staff. As we undertake on these projects we are committed to promoting development while sustaining the ecological management and protecting the environment.

SBI undertakes to ensure the safety of its workers by providing a safe and healthful

workplace. Through Intergrated Management System (comprising of Quality Assurance, Environmental Protection, Occupation Health & Safety Management Systems), the management has taken precautionary measures to ensure protection of the environment and safety of all persons concerned, in all areas of its operations, at all times. SBI provides awareness through training and educational programs with Professional Consultants to help broaden the knowledge about prevention of health hazards.

The establishment and enforcement of the abovementioned INTEGRATED MANAGEMENT SYSTEM POLICY conforms to the International Standard as follows; Quality Assurance-ISO 9001:2008, Environmental Protection-ISO 14001:2004 and Occupational Health & Safety Management Systems-OHSAS 18001:2007.

"We place a heavy emphasis on implementing our Corporate Social Responsibility policies," Dunsky says. "We make sure we're helping the community. This includes supporting and giving back to the local communities around the areas of our projects." SBI Uganda's strategic commitment under its social policy over the years goes beyond contributing to the community in areas they operate. Whilst SBI has been contributing to the infrastructural development in Uganda, our fulfilment comes with contributing to the wellbeing of the people in the communities.

This has made it become the leading socially responsible Construction Company in Uganda. Some of the outstanding examples of CSR that SBI (Uganda) has engaged in include:

"The Doctors in Kiboga Hospital" - The project is a continuous donation of physician services for the Kiboga District Community totally financed by SBI. SBI sustains the Doctors who in turn provide free medical services to the communities. The Doctors regularly implement training programs to village health volunteers, clinical and nursing staff who in turn promote health education and disease prevention in their own communities. We are happy to see more lives

Roads | Highways | Civil Works | Bridges | Water Projects
Hydroelectric plants | Property Development | Turnkey Projects

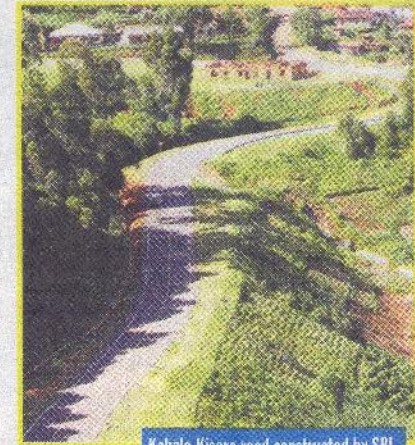

saved and people's health improve.

"Doing Good" Project - Also known as Good Deeds Day; is a global annual programme where SBI Employee's world over, give back to the community in the countries they have presence. Each year, we select different marginalised communities to work with. The list includes; deaf school, orphanages, street children, technical institutions and schools. Our contribution to these organisations ranges from renovations, provision of equipment, scholastic materials, food supply, etc.

These are in addition to other different corporate social responsibility activities.

With a Vision "To provide quality products and services to a cross-section of clients while supporting the community and fostering economic development in an environment friendly manner" SBI is looking at bringing to Uganda our expertise beyond road construction to fields like Water Projects, Hydro-Electricity Dams and Railways amongst others.

In addition to the current traditional tendering methods, SBI is currently looking forward to participate in the newly introduced programs of Contractor Facilitated Financing Mechanisms (CFFM) and the Private Public Partnership (PPP).
